DETAILED ACTION

EXAMINER'S AMENDMENT

Applicant's election filed on October 26, 2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)), and the limitations contained in claim 1 are not generic for all of the species.

This application is in condition for allowance except for the presence of claims 3-6 and 9-14 directed to non-elected species. Accordingly, claims 3-6 and 9-14 have been cancelled.

Allowable Subject Matter

1. Claims 1, 2, 7 and 8 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1, 2, 7 and 8 are allowable because the prior art of record neither anticipated nor rendered obvious that a pixel structure comprises a relationship of elements as claimed with specific features recited in claim 1:

a contact block disposed under the pixel electrode and electrically connected to the pixel electrode, a first repairing pattern disposed over the substrate wherein one end of the first repairing pattern is positioned under the data line while the other end of the first repairing pattern is positioned under the drain electrode, a second repairing pattern disposed over the substrate wherein one end of the second repairing pattern is positioned under the data line while the other end of the second repairing pattern is positioned under the contact block, and a dielectric layer disposed over the substrate covering the first repairing pattern and the second repairing pattern as shown in Figs.2-3.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
